If you are content with blue serge, roast beef, square houses and domestic cigars, then Wills Sainte Claire is not made

Other motor cars of more or less distinction will do just as well.

Happily, there is a small but extremely worth-while group of people who are more exacting in their tastes. They are rather partial to Biltmore tweeds, squab pheasant, sandstone cottages and pure Havana leaf.

They do most of the things worth while in this world, and they do what they do with a flare-LIVE WITH AN AIR!

For these C. Harold Wills created Wills Sainte Claire. One must be born with the divine gift of INDIVIDUAL ITY, before the half-European beauty, and wholly American pep and power of this remarkable car becomes an irresistible necessity.

Assets to the City—

From the depths of bored wells flows a supply of cold, sparkling water, pronounced by State Officials to be 100% pure-broad streets-wellkept homes-hundreds of spreading maples that hold the slightest breeze from a wholesome country side,—these are among the assets that make Marion a good place to live—that make Marion folks the most fortunate in the country.

In manufacturing, Marion is a center where industries are stabilized and labor conditions ideal. In dairy products manufacturing facilities have been developed to supply a pure, clean, rich milk that meets every requirement—to make an ice cream which tastes as good and tests as rich and pure as any ice cream anywhere. What a great contribution this is to the public welfare.

Marion prizes its daily plate of good ice cream -it appreciates the supply of pure milk and cream. It is not boasting to say that Marion milk and Marion made ice cream is worthy of being classed among the city's genuine assets.
